Schultergürtel			
Clavicula (Schlüsselbein)			
Corpus claviculae	Extremitas acromialis	Extremitas sternalis	
Facies articularis acromialis	Facies articularis sternalis	Impressio lig. costoclavicularis	
Linea trapezoidea	Sulcus m. subclavii	Tuberculum conoideum	
Scapula (Schulterblatt)			
Acromion	Angulus acromialis	Angulus inferior	Angulus superior
Cavitas glenoidalis	Fossa infraspinata	Fossa subscapularis	Fossa supraspinata
Incisura scapulae	Margo lateralis	Margo medialis	Margo superior
Processus coracoideus	Tuberculum infraglenoidale	Tuberculum supraglenoidale	Spina scapulae
Obere Extremität			
Humerus			
Capitulum humeri	Caput humeri	Collum anatomicum	Collum chirurgicum
Condylus humeri	Crista supracondylaris medialis	Crista supracondylaris lateralis	Crista tuberculi maj.
Crista tuberculi minoris	Epicondylus lateralis	Epicondylus medialis	Facies anterior lat.
Facies posterior lateralis	Facies anterior medialis	Facies posterior medialis	Fossa coronoidea
Fossa olecrani	Fossa radialis	Margo lateralis	Margo medialis
Linea supracondylaris lateralis	Linea supracondylaris medialis	Sulcus intertubercularis	Sulcus n. radialis
Sulcus n. ulnaris	Trochlea humeri	Tuberculum majus	Tuberculum minus
Tuberositas deltoidea			
Ulna			
Caput ulnae	Circumferentia articularis	Crista m. supinatoris	Facies anterior
Facies medialis	Facies posterior	Incisura radialis	Incisura trochlearis
Margo anterior	Margo interosseus	Margo posterior	Olecranon
Processus coronoideus	Processus styloideus	Tuberositas ulnae	
Ossa carpi			
Canalis carpi	Eminentia carpi radialis	Eminentia carpi ulnaris	Hamulus ossis hamati
Os capitatum	Os centrale	Os hamatum	Os lunatum
Os pisiforme	Os scaphoideum	Os trapezium	Os trapezoideum
Os triquetrum	Retinaculum flexorum	Tuberculum ossis scaphoidei	Tuberc. ossis trapezii
Radius			
Caput radii	Circumferentia articularis	Collum radii	Facies anterior
Facies articularis carpalis	Facies lateralis	Facies posterior	Fovea articularis
Incisura ulnaris	Margo anterior	Margo interosseus	Margo posterior
Processus styloideus	Tuberculum dorsale	Tuberositas pronatoria	Tuberositas radii
Ossa metacarpalia			
Basis	Caput	Corpus	
Ossa digitorum manus			
Basis phalangis	Caput phalangis	Corpus phalangis	Phalanx distalis
Phalanx media	Phalanx proximalis	Tuberositas phalangis distalis	
Untere Extremität			
Os coxae			
Facies lunata	Foramen obturatum	Fossa acetabuli	Incisura acetabuli
Limbus acetaboli			
Os ilium			
Ala ossis ilii	Corpus ossis ilii	Crista iliaca	Facies auricularis
Facies glutea	Facies sacropelvina	Fossa iliaca	Labium externum
Labium internum	Linea arcuata	Linea glutea anterior	Linea glutea inferior
Linea glutea posterior	Linea intermedia	Linea terminalis	Spina iliaca ant. inf.
Spina iliaca anterior superior	Spina iliaca posterior inferior	Spina iliaca posterior superior	Sulcus supraacetab.
Tuberculum iliacum	Tuberositas iliaca		
Os pubis			
Corpus ossis pubis	Crista pubica	Eminentia iliopubica	Facies symphysialis
Pecten ossis pubis	Ramus inferior	Ramus superior	Sulcus obturatorius
Tuberculum obturatorium anterius	Tuberculum obturatorium post.	Tuberculum pubicum	
Os ischii			
Corpus ossis ischii	Incisura ischiadica major	Incisura ischiadica minor	Ramus ossis ischii
Spina ischiadica	Tuber ischiadicum		
Femur			
Caput femoris	Collum femoris	Condylus lat. / Condylus med.	Corpus femoris
Crista intertrochanterica	Epicondylus lateralis	Epicondylus medialis	Facies poplitea
Facies anterior / Facies lateralis	Facies medialis / Facies patellaris	Fossa intercondylaris	Fossa trochanterica
Fovea capitis	Labium laterale / Labium mediale	Linea aspera	Linea intercondylaris
Linea intertrochanterica	Linea pectinea	Linea supracondylaris lateralis	Linea suprac. med.
Sulcus popliteus	Trochanter major / Trochanter min.	Tuberculum adductorium	Tuberc. quadratum
Tuberositas glutea			
Patella			
Apex / Basis / Facies articularis			
Tibia			
Area intercondylaris anterior	Area intercondylaris posterior	Condylus lat. / Condylus med.	Corpus tibiae
Eminentia intercondylaris	Facies anterior	Facies articularis fibularis	Facies art. inf. tibiae
Facies articularis malleoli	Facies medialis / Facies posterior	Incisura fibularis	Linea musculi solei

Malleolus medialis Sulcus malleolaris	Margo anterior Tuberculum intercondylare lat.	Margo interosseus Tuberculum intercondylare med.	Margo posterior Tuberositas tibiae
Fibula			
Apex capitis Facies articularis malleoli Fossa malleoli	Caput fibulae Facies lateralis Malleolus lateralis	Crista medialis Facies medialis Margo anterior / Margo post.	Facies art. Capitis Facies posterior Sulcus malleolaris
Talus (Sprungbein)			
Caput tali Facies articularis calcanea ant. Facies malleolaris lateralis Sulcus tali Trochlea tali	Collum tali Facies articularis calcanea media Facies malleolaris medialis Sulcus tendinis m. flexoris hallucis longis Tuberculum laterale	Corpus tali Facies articularis calcanea post. Processus lateralis tali Tuberculum mediale	Facies superior Facies art. navicularis Processus post. tali
Calcaneus (Fersenbein)			
Facies articularis cuboidea Processus lateralis tuberis Sulcus tendinis m. flexoris hallucis longis Trochlea peronealis	Facies articularis talaris anterior Processus medialis tuberis Tuber calcanei	Facies articularis talaris media Sinus tarsi Sulcus tendinis m. peronei	Facies art. talaris post. Sulcus calcanei Sustentaculum tali
Os naviculare (Kahnbein)			
Tuberositas ossis navicularis			
Os cuboideum (Würfelbein)			
Sulcus tendinis musculi peronei longi		Tuberositas ossis cuboidei	
Ossa cuneiforme (Keilbeine)			
Os cuneiforme intermedium	Os cuneiforme laterale	Os cuneiforme mediale	
Ossa metatarsalia (Mittelfußknochen)			
Basis Tuberositas ossis metatarsalis I	Caput Tuberositas ossis metatarsalis V	Corpus	
Digitus pedis (Zehen)			
Phalanx distalis	Phalanx media	Phalanx proximalis	Tuberositas phalangis distalis
Stamm			
Vertebrae cervicales (Halswirbel)			
Arcus vertebrae Incisura vertebralis inferior Processus articularis inferior Sulcus n. spinalis Tuberculum caroticum	Corpus vertebrae Incisura vertebralis superior Processus articularis superior Tuberculum posterius Unci corporis (Processus uncinati)	Foramen transversarium Lamina arcus vertebrae Processus spinosus Tuberculum anterius	Foramen vertebrale Pediculus arcus vert. Processus transv.
Atlas			
Arcus anterior Articulatio atlantoaxialis medialis Foramen vertebrale Sulcus arteriae vertebralis	Arcus posterior Facies articularis inferior Fovea dentis Tuberculum anterius	Articulatio atlantoaxialis lateralis Facies articularis superior Massae laterales Tuberculum posterius	For. transversarium Processus transv.
Axis			
Apex dentis Facies articularis anterior Processus transversus	Arcus vertebrae Facies articularis posterior	Corpus vertebrae Foramen transversarium	Dens axis Processus spinosus
Vertebrae thoracicae (Brustwirbel)			
Corpus vertebrae Fovea costalis Incisura vertebralis superior Processus articularis superior	Foramen intervertebrale Fovea costalis proc. transversi Lamina arcus vertebrae Processus spinosus	Foramen vertebrale Incisura vertebralis inferior Pediculus arcus vertebrae Processus transversus	Foramen vertebrale Processus art. inf.
Vertebrae lumbales (Lendenwirbel)			
Corpus Lamina arcus vertebrae Processus articularis superior	Foramen vertebrale Pediculus arcus vertebrae Processus costales	Incisura vertebralis inferior Processus accessorius Processus mamillaris	Incisura vertebr. sup. Processus art. inf. Processus spinosus
Os sacrum (Kreuzbein)			
Alae sacrales Crista sacralis intermedia Facies dorsalis Hiatus sacralis Processus articulares sup.	Apex ossis sacri Crista sacralis lateralis Facies pelvina Lineae transversae Tuberositas sacralis	Basis ossis sacri Crista sacralis mediana Foramina sacralia anteriora Pars lateralis	Cornua sacralia Facies auricularis For. sacralia post.
Os coccygis (Steißbein)			
Cornua coccygea			
Sternum (Brustbein)			
Angulus sterni Incisura jugularis	Corpus sterni Manubrium sterni	Incisura clavicularis Processus xiphoideus	Incisura costalis
Costae (Rippen)			
Angulus costae Corpus costae Crista capitis costae (2.-10. costa) Sulcus arteriae subclaviae Tuberculum costae (außer 11., 12. costa) Tuberositas m. serrati anterioris	Caput costae costae fluitantes Crista colli cristae Sulcus costae (außer 1., 11., 12. costa)	Cartilago costalis Costae spuriae Facies articularis capitis costae Tuberculum m. scaleni anterioris (nur 1. costa)	Collum costae Costae verae Os costale
